Dear GI Friends and Colleagues,

We are very excited about this meeting. **This is a unique meeting for those who have an interest in GI and specifically GI Nutrition - we hope you will like the line up!**

This is the Sheffield National Dietetic GI Symposium (under the auspices of the BDA and the BSG). The programme has been determined by dietitians and includes hot topics about areas of our GI practice, and examples of great practice! The speakers selected are nationally and, for some, internationally recognised. We hope that the talks are relevant and will influence your clinical practice.

We have run other GI meetings which we are pleased to say were very well attended. Last year our annual Sheffield GI symposium attracted >300 delegates on the day and the feedback/evaluation forms suggest a >95% good to excellent rating.

So please share this brochure out with anyone you think who may be interested in your department. **The meeting is entirely free for all delegates and there are 300 places. However, we (the organisers) have to pay for the delegates upfront** (approximately £100 per person) and for this reason I really want to make a plea that if you have registered and are not able to attend please let us know so we can let someone else use that place.

To register please email Deborah.French@sth.nhs.uk with your name, position, hospital base, contact number and email address. Please also let us know if you have any dietary requirements.

The meeting is entirely free and Sat Nav postcode is S1 2AU

The venue, Holiday Inn Royal Victoria, is easily accessible just 10 minutes from Junction 33 on the M1 (just off the A57 on the outskirts of Sheffield City Centre, thus avoiding traffic). This is very close to the Sheffield train station so jumping on a train from where you are brings you to within a 5 minute taxi drive or 15 minute walk to the venue. Parking is free of charge. On the day, all delegates will be provided with relevant papers and reviews which will hopefully augment talks.

We do hope you will attend.

Best wishes,

David S Sanders

Nick Trott
